

Workplace Solutions Case Study: Fortune Global 500 Recruitment Company

Hilldrup supported the decommissioning of 40,000 lbs of workplace items for a long-term client.

Hilldrup's Workplace Solutions

Whatever workplace solutions our clients require, Hilldrup delivers. Our professionals have provided national moving services, interstate transport of furniture, fixtures and equipment (FF&E), decommissioning solutions as well as e-cycle and paper shredding. We partner with clients who are just as committed to sustainability goals as we are providing them certificates and receipts of decommissioning totals as we work together to keep workplace items out of landfills.

For a recent project, Hilldrup was challenged with loading a full trailer of office furniture from Illinois to one of their corporate offices in Florida, just a few miles from our Orlando branch. A month later, our professionals would re-deploy approximately half of the trailer to another project in Texas. Together we decommissioned multiple types of workplace items, from desks and chairs to tables and bookcases. Most impressive was that approximately 90% of the items that would have ended up in a landfill were able to be recycled, donated or liquidated.

A Fortune Global 500 company specializing in worldwide workforce recruitment, this long-standing partner has collaborated with Hilldrup since 2015. While they employ thousands of specialized recruiters across over 60 countries to provide jobs for over half a million people each day, Hilldrup's Workplace Solutions team specializes in a standard nationwide office moving and decommissioning program to limit disruption on a consistent basis.

By the Numbers

- 40,000 lbs decommissioned
- 14,000 lbs transported interstate
- 90 workstations decommissioned
- 100 desk chairs relocated
- 14 sets of desks relocated
- 90% of the decommission project was calculated to have been kept out of landfills thanks to liquidation, recycling and donations
- 1 week for timeline project

"Everything went really smoothly, and the crews are top notch."

- Jim McKee, Workplace Facilities Manager
