

Workplace Solutions Case Study: Global Financial Institution in DMV

With strategic locations serving the DMV area and a dedicated team, Hilldrup seamlessly supports the MAC and workplace needs of our client's campus.

The Washington, D.C. area is home to approximately thirty Fortune 1000 companies in sectors from financial to technology to healthcare. These Fortune 1000 companies located across the nation's capital require a dedicated workplace partner who understands the unique needs, challenges and benefits of doing business in and around D.C. Our client, a global financial institution, selected Hilldrup as their partner for the value and expertise we deliver, enhancing their workplace program and ensuring a best-in-class experience for their campus of approximately 7,000 associates.

Ongoing Services Overview

Project Type: Workplace Solutions

Timeline: January 2023 – Present

Provided Services: Move, Add, Change (MAC) Services

How We Help

We support our client by having a dedicated staff of Hilldrup employees who report daily to support Move, Add, Change (MAC) services at their corporate headquarters, which includes employee moves, furniture installation and reconfiguration, conference and meeting setup as well as warehousing and asset management.

One of the biggest differentiators as our client's dedicated provider is Hilldrup's ability to seamlessly integrate with their corporate real estate and property development professionals to act as an extension of their in-house program. Our uniquely positioned DMV locations allow Hilldrup to subsidize on-site teams with supplemental support for projects that require additional resources or storage. Our state-of-the-art technology offers dashboard reporting on areas of spend and insights into key performance indicators.

Hilldrup supports our client's headquarters campus, a multiple-building workplace that accommodates thousands of employees each day.

Thanks to Hilldrup's strategic locations, dedicated team and best-in-class technology, we are honored to support our client with their daily MAC needs.
